\$100!**

Title of Study: An Examination of Student Perception of Parental Involvement

Your child is being asked to participate in a research study conducted by Tiffany Hicks, an Educational Leadership Doctoral Candidate from the Department of Educational Leadership at Mississippi College in Clinton, MS. The results of this study will contribute to the researcher's dissertation, which examines the relationship of student perception of parental involvement. Your child has been selected for the study because he or she is student at Hazlehurst City School District.

Purpose of the Study

The primary purpose of this study will be to determine the students' perception of parental involvement. Understanding the factors that may directly or indirectly impact student achievement and academic outcomes is essential to the success of students. Scharton (2019) implicates that supportive, reassuring, and encouraging parental or guardian conduct correlates with higher student achievement. Through this process, parents are given multiple ways to support the students' educational experience. The overall purpose is to find out ways to positively impact student achievement and overall success.

Procedures

If you consent for your child to participate in this study, your child will complete a twenty-nine (29) question ten-minute survey online during school hours with his/her teacher.

Participation Incentive

Participating students will be entered in a **raffle drawing to win \$100 cash**. The lucky winner will receive notification of the \$100 cash over the public announcement system one week after the survey is to be completed. One student winner from each campus will be randomly selected through a drawing system process.
